

Operations - Graphic Services

Our commitment to quality and state-of-the-art equipment, technology and software delivers accurate, high-quality printing.

Access Graphics specializes in high-speed, high-quality color printing, with presses that can accommodate up to 12 colors and supports the product lines we currently offer. We print continuous forms, mailing inserts and self-mailers. Delivering high quality printed products on time and at a reasonable cost satisfies our customers and keeps us ahead of the competition.

We have state-of-the-art technology that facilitates digital plate making, an inventory of high-quality continuous form stock and high-speed printers to meet our clients' needs for high-quality, fast turnaround and cost-efficiency.

- **Electronic Pre Press**

We can receive electronic files in almost any format from any location worldwide, including compact disks, email and FTP. Current development of our online proofing capability will expedite job preparation and reduce approval time to hours instead of days.

- **Printing for Continuous Forms, Mailing Inserts and Self-mailers**

Our continuous form roll feed products are produced on high quality stock that is compatible with our high-speed laser printers and post-print processing equipment. It is designed to increase your throughput for checks, statements, bills and other customized applications.

The roll feed stock is break free, which means our print operators do not have to stop production to re-thread a paper break. This translates into greater efficiency and savings for our clients.

- **Sheeting**

Our sheeting operation can be put inline for sheeting continuous roll-fed printing. Once sheeted, our bindery equipment can be used for cutting and folding equipment to create components of any size suitable for mailing.
